

Consumer Notice Disclaimer

These parts are aftermarket parts. They have been modified and not solely Genuine OEM Parts. The use of these off road parts and components may impact the performance characteristics of other systems of the vehicle. When operating properly, these parts and components have the potential to adversely impact other systems of the vehicle.

Consumers are solely and completely responsible for evaluating their vehicle to ensure that the vehicle, and each part of that vehicle, is appropriate for this part or component. It is the consumer's sole responsibility to have the off parts properly installed on their vehicle along with any modifications necessary for the proper performance and safety of the vehicle. Vehicle damage caused by a consumer's failure to modify the vehicle properly for use of these parts and components is the sole responsibility of the consumer.

These parts are not sold with a warranty. These parts are sold "as is", "with all faults", "as they stand" and without any express warranty whatsoever. To the fullest extent allowed by the state and federal law, I expressly disclaim the implied warranties of merchantability and of fitness for a particular purpose, even if a particular purpose is mentioned herein. I also expressly disclaims all liability for direct, indirect, special, incidental or consequential damages, including but not limited to, damage or loss of property or equipment, loss of profits or revenue, cost of purchase or replacement of goods, or claims of customers of the purchaser that result from the use of any and all parts. In no event shall I, whether in tort, contract or otherwise, exceed the cost of the part or vehicle. However, you may have legal rights which vary from state to state.

Should any parts prove defective following their purchase, the buyer shall assume the entire cost of all necessary servicing and/or repair. The entire risk as to the performance of such parts or vehicles is with the buyer.

These parts are not street legal or certified under federal motor vehicle safety standards and regulations. Vehicles that are not street legal or certified under federal motor vehicle safety standards and regulations are neither intended nor certified for use on public roads. These parts are not designed or tested for crashworthiness or to meet the safety needs of the motoring public. Instead, these parts are designed and intended for off road vehicles with engineers supervising the installation and use of the off-road parts to ensure that the safety needs of the off road driver are met. These off road parts could conceivably be combined in an infinite combination, and the use of some parts on some vehicles could adversely affect the performance of the vehicle or other off road parts.
